RECOVERY IMPOSSIBLE; HANNA DYING SLOWLY

Honored Statesman Expected to Expire at Any Moment—Poignant Grief at Gloomy Capital.

Washington, February 15 .- (Special.) - Governor Herrick and Daniel R. Manna, the son of the senator, came from the sick room at 1:33 o'clock this afternoon and stated that death was expected at any moment.

Washington, February 15 .- (Special.) - Senator Hanna is still sinking. his physicians at noon gave absolutely no hope for his recovery. They stated that only his vigorous constitution could carry him through the day. All of last night Senator Hanna's life hung on a thread and his death was expected at any moment. He slept for a short time about midnight and fallied somewhat, due to an injection of brandy and water, but at 1 o'clock he fell into another stupor and has been gradually sinking since.

A deep gloom has settled over the capital. At the white house and the arious government departments word from the Arlington hotel is most inxiously awaited. Nobody has any heart for the transaction of business and the announcement that death has triumphed is awaited. The senator's dying condition for the past 24 hours has in a measure prepared the capital tal for the worst.

AGED MAN

John Ammen, of Walkers, Met Death While Gathering Coal Along the Track.

Owing to defective hearing John Ammon, an aged resident of Walker's. was run down and instantly killed Saturday afternoon by a freight train on the C. & P. tracks a short distance from his home. The body was picked up by the trainmen and taken to the baggage office at the local passenber station, where it remained for some time before it was identified by rela tives who became anxious over the long absence of the man.

Ammon was about 70 years of age and for years has been employed in the clay banks at Walker's, and was well and favorably known in the community. He left his home Saturday afternoon to gather coal along the railroad track. He was so engaged when the east bound freight approach ed and was not heard by the man until it was upon him.

From the nature of the injuries re ceived it is evident that the man was stooping over with the head facing the engine, as he was struck on the face and head and knocked from the track. The train was stopped, but Ammon was dead when the trainmen reached him and the body was placed in the caboose and taken to the baggage room at the station, where it was viewed by a large number of people before it was finally recognized as that of John Ammon. The face was badly mutilated, which made identification extremely difficult.

The body was then removed to the Rinehart undertaking establishment and was taken to the family home at Walker Sunday. Deceased is survived by a sister and six sons. The funeral services will be held at the home Tuesday afternoon, interment will be made in Spring Grove cemetery.

Effort to Prevent the Appearance of Mrs. Soffel on the Stage In This City.

THE MAYOR WILL NOT ACT

Can See No Legal Grounds on Which the Production Can Be Stopped Ministers Outspoken in Their Condemnation of the Play.

A concerted move was started in the city yesterday to prohibit the appearance of Mrs. Kate Soffel, who gained universal notoriety two years ago by her act in liberating the Biddle brothers from the Pittsburg jail and accompanying them on their fatal journey to escape punishment for murder, before an East Liverpool audience on next Wednesday night, when the play, "A Daring Woman," is to be presented. Rev. Edwin Weary, rector of St. Stephen's Episcopal church, was the principal agitator, but every minister in the city heartily joined with him in his determination to thwart the appearance of the woman.

Mayor Weaver was applied to by Rev. Mr. Weary, who asked him his opinion of the case. The chief executive replied that he would favor any action that would result in keeping Mrs. Soffel off the local stage, but he did not think he was empowered to eject her. He explained that so far as the laws of the city or state are concerned Mrs. Soffel is not a criminal now; she has paid her penalty by imprisonment, and there is no known aw that can be brought to play against her. The mayor said she is now as free as the water which flows in the brook, and he could not inter fere according to his judgment. He lowever, advised that the agitators apply to Judge Hole for an injunction stating that this would be their only ecourse. Rev. Mr. Weary stated this morning that it is not unlikely that the ministers will apply for the in-

Aside from the injunction proceedings the mayor says he will have an ordinance enforced on that night which, if there is anything indecent or mmoral about the show, will prevent its presentation. The ordinance follows:

"It shall be unlawful for any owner or lessee of any grounds, lots, buildings, hall, opera house or other struchibition of any indecent, vulgar, lewd or immodest act either by word, gesture or otherwise, within the corporate limits of the city of East Liverpool. Upon conviction of any violation of BANKER RELEASED the foregoing section the mayor shall declare the license of any of the above named parties forfeited and shall pay a fine of not exceeding \$50 and not less than \$5 and shall be imprisoned in the city jail or workhouse until paid."

It is said that the general opinion is that the play in which Mrs. Soffel appears is a reproduction of the Biddle episode. This is by no means true. FOR COUNTY AUDITOR It does not pertain to the affair.

Kate Soffel Play and Opera House Management Condemned In Strong Terms.

RESOLUTION RE-AFFIRMED

Ministerial association, at a meeting held in the Y. M. C. A. parlors this morning took a determined stand against the appeaance here of Mrs. Kate Soffel on Wednesday night A set of resolutions were adopted by the ministers condemnatory to the play and the opera house management for booking it. While the meeting was in progress Mayor Weaver was communicated with and appealed to to preven the performance, but it was learned from the mayor that he had investi gated the matter, and learned that he could do nothing.

The production of the play, the reso lution states, will be a disgrace to the city and dangerous to those disposed to crime to witness it. The action of the epera house management in book

Management Condemned In Strong Terms.

RESOLUTION RE-AFFIRMED

The Ministerial association, at a OR. JONES CALLS IT meeting held in the Y. M. C. A. parlors this morning took a determined stand against the appeaance here of Mrs. Kate Soffel on Wednesday night. A set of resolutions were adopted by the ministers condemnatory to the play and the opera house management for booking it. While the meeting was ir progress Mayor Weaver was communicated with and appealed to to prevent the performance, but it was learned from the mayor that he had investi gated the matter, and learned that he could do nothing.

The production of the play, the reso lution states, will be a disgrace to the city and dangerous to those disposed to crime to witness it. The action of he epera house management in book ng the play is branded as reprehensi-

The ministers also considered the resolution passed several years ago protesting against Sunday funerals As stated exclusively in the News Review two weeks ago, the old resolution was reaffirmed and if observed there will be no more Sunday funerals in East Liverpool.

The ward local option bill, which association, came up for further dis cussion, but owing to the lateness of the hour it was passed until the next

Notwithstanding his physical coneveral day's sickness, Dr. J. C. Tag- way. gart, pastor of the First United Presbyterian church yesterday morning preached a most powerful sermon. His subject was chosen from the book of loshua. In part the minister said:

"The book of Joshua begins a new division of the history of God's people. It is the book of entrance, of conquest, of possession and dispossession. He is the captain or leader of the people who were to enter into and take possession of the promised land. Moses the deliverer from the oppression of Egypt, by whose mediation the laws and ordinances of their religion had There are now 166 employes at the been given and the tabernacle built, had brought them through the wilderness, but Joshua was the one to lead them over the Jordan to the possession of the land. So while the law and the ceremonies of religion may bring us to the border of our possession it is Jesus, the Savior, who alone can bring us into it.

paratus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does; and oxygen is the very source of vitality, the most essential element of life. The effects of Liquozone are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle and offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly —like an excess of oxygen—is deadly to vegetable matter. That is why Liquozone kills every disease germ, and with a product which to the human

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. The decision follows: The merchandise is fire clay in granulated form, and is claimed by the importers to be dutiable under paragraph 93, tariff act of 1897, at \$1 per ton, as 'clay or earth, unwrought or unmanufactured.' A sample of the importation in question was submitted to the appraiser of New York for examination in the United States laboratory, and the chemist in charge reports the same to be 'crude unwrought clay.' A similar substance, which has been ground and bolted and is in the form of dust or powder, is recognized in trade as fire clay, wrought; whereas the granulated clay under consideration, although ground or crushed, has en subjected to treatment for convenience of transportation only. We find that the merchandise is clay, unwrought or unmanufactured, and sustain the protest, reversing the collector's assessment of duty at \$2 per ton under paragraph 93."

WEST MARRIED AGAIN.

Sam West, whose wife, the late Birdie West, committed suicide here about six weeks ago, is married again, his bride being a Steubenville woman. He is employed at the Carrollton pottery, having returned there with his bride a few days ago. It will be remembered that West shot and almost killed Marsh Hobbs at New Cumberland some months ago, on account of an alleged intimacy with the late Mrs West. He was arrested and tried at New Cumberland, the jury returning a verdict of acquittal. He did not live with Mrs. West afterwards and she figured in local police court circles on several occasions. Upon the death of Mrs. West an effort was made to bring West here so that he could be made

FOLLOW HIS LEADERSHIP

Cannot Go Wrong-God Is Ever Among His People-Interesting Sermon by Dr. J. C. Taggart.

Notwithstanding his physical condition, which was greatly impaired by several day's sickness, Dr. J. C. Taggart, pastor of the First United Presbyterian church yesterday morning preached a most powerful sermon. His subject was chosen from the book of Joshua. In part the minister said:

"The book of Joshua begins a new division of the history of God's people. It is the book of entrance, of conquest of possession and dispossession. He is the captain or leader of the people who were to enter into and take possession of the promised land. Moses the deliverer from the oppression of Egypt, by whose mediation the laws and ordinances of their religion had There are now 166 employes at the been given and the tabernacle built, had brought them through the wilderness, but Joshua was the one to lead them over the Jordan to the possession of the land. So while the law and the ceremonies of religion may bring us to the border of our possession it is Jesus, the Savior, who alone can bring

"Thus were they and thus are we taught the need of divine guidance and divine power in going forward to win the world for Christ. This is the word of the Lord: 'Not by might nor by power, but by my spirit.' The Lord's words spoken in his farewell discourse, 'Without me ye can do nothing,' and written through the whole Bible, let us never forget them. So not only are we to wait for the presence and guidance of God when we plan any advanced movement, we are ever and always to hold ourselves in readiness to follow whenever the Lord leads the

"God never leaves His people. He is ever in the midst of His church. This has been verified in all the great revival movements in the history of the church and in all the great reforms in the advancing civilization of the world. God has led the ay and these movements have accomplished their gracious purpose as his people have followed the divine leading. God has in all ages advanced His kingdom in the world by seasons of reviving. Orlinary methods of teaching and working may be good for ordinanty times but we ought to hold ourselves in readiness for special manifestations of God's leadership. True, when God is working, as He seems to be in many parts of the world, there is great encouragement for it, but these encour agements call for and demand on our part the greater exercise of faith in the enjoyment of the displays of di vine power.

"We are ever to walk by faith and not by sight. The lessons taught by the foregoing should be heeded by the church in the planning of the present forward movement which we hope and pray may lead her on to greater vic tories of faith than any of the past."

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. Hope has almost been abandoned in the case of Senator Hanna and it is not improbable that before this issue of the News Review reaches its read- The little girl who wore her new cloak ers he will no longer be numbered with the living. His death would be a national misfortune. No man in public life in recent years has risen more rapidly in favor or in the confidence of the people. When he first reached national prominence in 1896, as chairman of the Republican national committee, pretty lining!" he was known only as a politician. Successful and able in the work assigned him, he was made a United States senator. In the highest lawmaking body in the country he soon demonstrated that he was a leader among statesmen, as well as among politicians. His services to his party and to his country have endeared him to the whole people. His work outside of the senate has been even more useful than in the national legislature. Especially appreciated by the whole country were his efforts toward settling the great anthracite coal strike and toward establishing a tribunal that should provide arbitration as the method of settling labor disputes. The fact that a large number of leading Republicans have been urging him to become the Republican presidential candidate this year shows his strength and popularity. Ohio and the nation are proud of Senator Hanna. A man of excellent business sense - as his Star. own remarkable success in business demonstrates-he has carried the same sagacity and common sense into politics and statesmanship. Another able senator we can easily get; another man combining all the elements necessary to be a great and successful leader of men will be hard to find. Repeated Sinking Spells Have Worn Out His Power of Resistance.

END EXPECTED AT ANY MOMENT

Family Gather at the Bedside Several Times Expecting It to Be the Last -Gallant Struggle Against Disease Will Avail Nothing.

Washington, Feb. 15.-Senator Hanpa's life hangs by a slender thread. His family and physicians are expect ing the end at any moment. Hope has given place to discouragement and despair. Last night the antercom of his suite at the Arlington was thronged with friends, but not one among them dared bolster up in his heart a hope for the patient's recovery. At 10:30 Secretary Cortelyou called and finding no encouraging news walked sadly out of the hotel. The family were taking a rest to husband their strength for a deathbed call at any moment.

It was apparent as early as 8:30 o'clock that an unusual gloom pervaded the hotel. All hope had been abandoned and any improvement in the senator's condition which developed in the course of the day was regarded as only temporary. Mr. Dover on coming from the sick chamber, said that there was no chance for life. although the physicians were not preparing for immediate dissolution.

Senator's Son Pessimistic. Dan Hanna on leaving the senator's apartment at 8:30 in answer to a question, said that he did "not have much confidence" in the outcome.

During the evening the senator' fever rose and was only reduced by tepid baths. Champagne was given him to increase his strength, but he showed no recuperation to fortify himself against another sinking attack which was feared at any time. His physicians proceeded upon the pro fesional theory that while there is lif there is hope, but they admitted that the chances were overwhelmingly against the patient.

The physicians used oxygen con tinously throughout the afternoon. The rally froma third sinking spell was so unusual that the physicians themselves were astonished. They said they believed it due largely to the patient's wonderful efforts to ald in their heroic measures. It was stated that the recurrence of the sinking spells does not imply that these will continue and that simply because of the previous depressions there is no reason to look for anothe drain of like character on his vitality At the same time the doctors hard! knew just what to expect.

Patient Takes Nourishment. The 8 o'clock bulletin showed n improvement in the senator's cond! tion. Some milk and whisky were shortly thereafter the patient was give and will reside on Lincoln avenue. hour after the bath, Senator Hanna dozed and was resting comfortably More nourishment was given at 8:39

The temperature was taken again at 9:20 o'clock, and registered 104.4. Finding that it had not diminished, as was expected, as the result of the first bath, another bath at 10 o'clock was given. The milk and whisky nourishment was abandoned tempor arily and a small quantity of champagne administered.

AT THE THEATER

If there is one situation in "A Daring Woman," the melodrama by Vic Calver, in which Mrs. Kate Soffel will appear at the Grand opera house next Wednesday night, that, speaking in the vernacular, "hits the audience in the solas plexus," it is the entrance of Crimson Feather, in the full panoply of war, demanding the surrender of the woman and that the men leave the country to its original owners-the Indians. The commander of the fort, an arrant coward, thinking thereby to save his own life, is in favor of the scheme and even dares to voice his opinion openly.

Lyman H. Howe will this season for the first time show moving pictures in colors. The process was recently patented and Mr. Howe was fortunate in securing the first pictures. Recently a moving picture camera was placed on the pilot of an engine and the

train made a trip through the famous Frazer river canon, Rocky mountains. One moment the train glides along the edge of mighty precipices and the next moment is shooting through a tunnel The giant mountains tower up on either side hundreds and thousands of feet. The mountains are colored in their original tints on the pictures and the scene is an intensely thrilling one. You can see hundreds of animals upon a ranch being branded. The driving of a herd of colts into the enclosure, lassoing them, branding them, releasing them are shown all true to life and full of excitement. At the Grand matinee and night next Tuesday.

Hoyt's "A Bunch of Keys," Manager Bothner's merry company of comedians and comediennes, should attract a big audience at the Grand opera house tonight. The farce has been rejuve ated this season. An entire new company has been engaged and great care and effort have been expended in the preparation of a new program of specialties, dances, songs, jokes and clever new bits of comedy business introduced.

'Alphonse and Gaston" will be presented at the Grand next Thursday night. It is a musical farce and a stage version of the humorous creations of cartoonist F. Opper, which has been the feature of the page of humor in the New York Sunday Journal for nearly two years, and it is with the authorization of W. R. Hearst, proprietor of the New York Journal, that the present management has made the production.

His services to his party and to his country have endeared him to the whole people. His work outside of the senate has been even more useful than in the national legislature. Especially appreciated by the whole country were his efforts toward settling the great anthracite coal strike and toward establishing a tribunal that should provide arbitration as the method of settling labor disputes. The fact that a large number of leading Republicans have been urging him to become the Republican presidential candidate this year shows his strength and popularity. Ohio and the nation are proud of Senator Hanna. A man of excellent business sense - as his own remarkable success in business demonstrates-he has carried the same sagacity and common sense into politics and statesmanship. Another able senator we can easily get; another man combining all the elements necessary to be a great and successful leader of men will be hard to find. AT THE THEATER

If there is one situation in "A Daring Woman," the melodrama by Vic Calver, in which Mrs. Kate Soffel will appear at the Grand opera house next Wednesday night, that, speaking in the vernacular, "hits the audience in the solas plexus," it is the entrance of Crimson Feather, in the full panoply of war, demanding the surrender of the woman and that the men leave the country to its original owners-the Indians. The commander of the fort, an arrant coward, thinking thereby to save his own life, is in favor of the scheme and even dares to voice his opinion openly.

Lyman H. Howe will this season for the first time show moving pictures in colors. The process was recently patented and Mr. Howe was fortunate in securing the first pictures. Recently a moving picture camera was placed on the pilet of an engine and the

Frazer river canon, Rocky mountains. One moment the train glides along the edge of mighty precipices and the next moment is shooting through a tunnel The giant mountains tower up on either side hundreds and thousands of feet. The mountains are colored in their original tints on the pictures and the scene is an intensely thrilling one. You can see hundreds of animals upon a ranch being branded. The driving of a herd of colts into the enclosure lassoing them, branding them, releasing them are shown all true to life and full of excitement. At the Grand matinee and night next Tuesday.

Hoyt's "A Bunch of Keys," Manager Bothner's merry company of comedians and comediennes, should attract a big audience at the Grand opera house tonight. The farce has been rejuvenated this season. An entire new company has been engaged and great care and effort have been expended in the preparation of a new program of specialties, dances, songs, jokes and clever new bits of comedy business introduced.

"Alphonse and Gaston" will be preented at the Grand next Thursday night. It is a musical farce and a stage version of the humorous creations of cartoonist F. Opper, which has been the feature of the page of humor in the New York Sunday Journal for nearly two years, and it is with the authorization of W. R. BASEBALL AMATEURS WILL APPRECIATE THIS OFFER

The News Review, ever with a friendly feeling towards the boys, as has been demonstrated time and again, has decided once more to do something which will cause the youngsters much genuine pleasure and sport. It proposes to give to the amateur base ball nine, either in East Liverpool, Chester or Wellsville, which secures the greatest number of subscribers for the News Review by May 15, a complete outfit, consisting of nine suits made to the individual measure of each mem-# . e ta a : e & is a (## 4 1) (4 ##) ber of the winning team.

The suits will be made from gray maroon, brown or blue green flannel, with the name of the nine across the shirt front in felt letters. The shirts will be button front, with detachable sleeves, and the pants will be padded in regulation style-the same as in use in the National league; stockings, caps, belts, mask, three (A1) famous St. Louis bats and two first-class balls.

Any pine in the three above mentioned cities may enter this contest; the only requirement being that the captain is to call in person on the circulation manager of this paper and get full particulars and blanks, as well as enter the name of his team as contestants.

The contest commences Monday, February 14, and closes at midnight May 14, 1904. Hustle, boys, and see who wins this expensive prize. A subscription secured for one month counts your team one point; three months, two points; six months, three points, and one

Immediately after his arrival he went to the Sistine chapel to hear the famous "Miserere" of Allegri. Being aware that it was forbidden to take or give a copy of this renowned piece of music, Mozart placed himself in a corner and gave the strictest attention to the music and on leaving the church noted down the entire piece. A few days afterward he heard it a second time and, following the music with his own copy in his hand, satisfied himself of the fidelity of his memory. The next day he sang the "Miserere" at a concert, accompanying himself on the harpsichord, and the performance produced such a sensation in Rome that Pope Clement XIV. requested that this musical prodigy should be presented to him at once.

Port Arthur Said to be Closed.

The Tokio correspondent of the Times cabling under date of Feb. 12, says: "It is said the Japanese squadron has sealed Port Arthur." The Daily Mail, the Daily Telegraph

and other papers publish dispatches from Tokio, Nagasaki and Shanghai reporting the destruction of three Russian cruisers by mines or tor pedoes in the Tsugaro strait off Aomori, Japan. The Daily Mail, which at first described the news as officia! in a later telegram says the report still lacks absolute confirmation.

Tokio, Feb. 15 .- Japan is bitterly resentful over the sinking of the merchant vessel Zensho by four Russian cruisers, which attacked the Zensho and her companion, the Nag anoura, while they were on their way from Sakata to Otaru, on the Island of Hakkaido. The attack of the Rus sians is declared to be a wanton crime, unjustified under any circum stances, even assuming that the Zen sho disegarded signals, which is denied. The foreign office has issued the following statement regarding the sinking of the Zensho:

"Two Japanese merchant vessels, the Zensho and the Naganoura, tonnage 170 and 700 respectively, while sailing from Sakata for Otaru were suddenly attacked by four Russian cruisers from Vladivostock, on Feb. 11, while ten miles off Jensangta. Fire was opened without any order being

CHRONIC DIARRHŒA

Death Stared Victim in the Face, But Blood Wine Saved him.

Chronic Diarrhoa is a disease caused by germs which infect the bowels. Blood Wine does two things-it forever destroys these germs, and it tones up and invigorates the whole system, restoring lost strength.
Read the experience of Wm. S. Bowie

of Charlestown, Mass.: "For a number of years I suffered with chronic diarrhea. It sapped my strength and changed me from a strong, healthy man to a frail, puny fellow. I would gladly have given \$500.00 for a cure. Physicians doctored me until I Low Fares to Georgia Via Pennsylvania Lines. was almost sick of seeing them come. They did me no good. I grew worse and worse, until death stared me in the face. I was absolutely hopeless. With a great deal of prejudice I was one day talked into trying 'Blood Wine.' To my great surprise I found it helped me.

I stuck to it regularly, following directions, and in time it cured me entirely. I cannot express my gratitude in the limits of a letter, but will say that I know it saved my life, and that I think it the greatest medicine in the world."

It is important that you read this let-ter from Mrs. Elizabeth Marsh, 22 Isabella St., Boston: "I have been a horrible sufferer from

dyspepsia for fifteen years. A lady told of the wonderful cures of Blood Wine, and I decided to try it for better or worse. It is certainly a sure cure for dyspepsia, for I know no one ever sufd more than I. I cannot say enough in its favor. Through long suffering with dyspepsia I was greatly run down. I took my meals with difficulty, and nothing would digest without causing me pain. 'Blood Wine' was recommended to me, and I took four bottles. It cured me, and I am now entirely

given the vessels to surrender. The Naganoura succeeded in escaping. The other vessel was surrounded by the cruisers and sunk. All on board were either killed or wounded."

Japanese Plan Reprisals.

It is said the Japanese government is planning reprisals. Several Russian ships, which have been detained in order to prevent reports of the movements of the Japanese from reaching the enemy, will now, it is said, be sent to the prize courts and in all probability will be confiscated!

The presence of Russian squadrous in northern Japanese waters centers all interest there. The country is isolated and it is difficult to obtain satisfactory reports from there.

A variety of rumors stir Tokio. One says Matsuma has been bombarded, another that the Japanese cruisers have engaged the Russians. The government has not confirmed anything except the Zensho incident. It is doubted that Matsuma has been bombarded, as it is undefended. It is regarded probable that the Russian fleet either returned to Vladivostock after completing a movement planne; to divert the Japanese, or else passed through the Tsugara straits moving south. The Japanese cruiser squad ron is scouting in the hope of locating the Russian fleet.

If the Russians should attempt to effect a function with the Port Arthur fleet, the Japanese will endeavor to block the way and force an engagement.

The Japanese government has decided to accept the parole of France for the Russian prisoners captured at Chemulpo at the time of the sinking of the Variag and Korietz, providing they be sent to Shanghai. Russia engaged not to let them come north of Shanghai until the end of the war. An exception is made in the case of 20 wounded aboard the French steamer scal. They will be taken to Chefoo and placed in a hospital.

United States Minister Griscom called on Premier Komura and an extended conference was held. It is thought it related to the effort of the powers to obtain the attitude of Japan toward preserving the entity of China, as proposed by Secretary Hay.

The situation in the north of China is exceedingly delicate. The Japanese have legation guards at Pekin and Tientsin in close proximity to the guards of the Russian legation, and there is danger of a conflict. It is also feared that if the north of China is included in the sphere of operations it will be impossible to prevent disorder and uprisings as a blind for at tacks on all foreigners

St. Petersburg, Feb. 15.-A telegrain from Khakarcysk announces that General Litevitch has been appointed to the supreme command of the Russian army in Manchuria.

Grand Duke Cyril, a cousin of the czar's uncle, are about to proceed to the seat of war. American and English women here have started on the preparation of materials for the Red Cross society with just as great heartiness as the Russian women engaged in the same work.

A communication from Viceroy Alexieff just received confirms the reof the Sungari bridge. These attempts, he adds, were immediately detected and decisive measures taken to guard the railway.

The Russians have explained their reasons for firing on the British ger. steamer Fuping, in which three of the Chinese crew were wounded. They assert that the vessel was leaving port without clearing. The British steamsians for refusing to deliver Japanese passengers.

Captain Gunderson of the Norwegfan collier Bygdo has been imprisoned at Port Arthur for four days for having in his possession a chart of the Charles Martin of Fayottesvile, the Japanese. Three Japanese were die. arested with him, but their whereabouts are not known.

Russians Making Arrests.

It is also reported that a correspondent has been arrested in attempting Feb. 25. to send news by the steamer Chefoo, sailing for Port Arthur. The captain was allowed to leave on agreeing to say nothing about the unconfirmed report that 51 Russian sailors had been killed in the engagement Tuesday. One refugee says he saw seven bodies landed from a disabled cruiser which list, bow down.

It is stated that 11 Russian ships were damaged in the recent engagement at Port Arthur. The whole fleet has moved into the inner harbor. Torpedo boats remain outside

The attack of the Russians is declared to be a wanton crime, unjustified under any circum stances, even assuming that the Zen sho disegarded signals, which is denied. The foreign office has issued the following statement regarding the sinking of the Zensho:

"Two Japanese merchant vessels, the Zensho and the Naganoura, tonnage 170 and 700 respectively, while sailing from Sakata for Otaru were suddenly attacked by four Russian cruisers from Vladivostock, on Feb. 11, while ten miles off Jensangta. Fire was opened without any order being

Japanese Plan Reprisals.

It is said the Japanese government is planning reprisals. Several Russian ships, which have been detained in order to prevent reports of the movements of the Japanese from reaching the enemy, will now, it is said, be sent to the prize courts and in all probability will be confiscated.

The presence of Russian squadrous in northern Japanese waters centers all interest there. The country is isolated and it is difficult to obtain satisfactory reports from there.

A variety of rumors stir Tokio. One says Matsuma has been bombarded, another that the Japanese cruisers have engaged the Russians. The government has not confirmed anything except the Zensho incident. It is doubted that Matsuma has been bombarded, as it is undefended. It is regarded probable that the Russian fleet either returned to Vladivostock after completing a movement planne; to divert the Japanese, or else passad through the Tsugara straits moving south. The Japanese cruiser squadon is scouting in the hope of locating the Russian fleet.

If the Russians should attempt to effect a junction with the Port Arthur fleet, the Japanese will endeavor to block the way and force an engagement.

The Japanese government has decided to accept the parole of France for the Russian prisoners captured a: Chemulpo at the time of the sinking of the Variag and Korietz, providing they be sent to Shanghai. Russia engaged not to let them come north of Shanghai until the end of the war. An exception is made in the case of 20 wounded aboard the French steamer scal. They will be taken to Chefoo

United States Minister Griscom called on Premier Komura and an extended conference was held. It is thought it related to the effort of the powers to obtain the attitude of Japan toward preserving the entity of China, as proposed by Secretary Hay.

The situation in the north of China is exceedingly delicate. The Japanese have legation guards at Pekin and Tientsin in close proximity to the guards of the Russian legation, and there is danger of a conflict. It is also feared that if the north of China is included in the sphere of operations it will be impossible to prevent disorder and uprisings as a blind for at tacks on all foreigners.

SCHOOLCODEQUESTION FROM LAST TO FIRST

It is Being Threshed Out at Columbus in a Lively Way.

State University and Common School Levy-Abolition of Spring Elections—The Canal Problem. Other Matters.

Columbus, February 15-(Special). All of the so-called administration measures except the election bill are now before the legislature. The school code is the principal subject of discussion, and that question is being threshed out in such a lively way that there can be no doubt that the bill which is finally made a law will be the best that can be devised. It will be impossible to please all interests, but if it proves as successful as the municipal code, which created so much discussion, the Republican party state. may feel well satisfied.

It may be remarked parenthetically, that the municipal code is a great success. There is no better evidence that it is generally satisfactory than the action or rather non-action of the legislature upon it. Only a few bills have been introduced which propose changing the code, and none of the changes are of great importance.

That supposedly staid body, the senate, is not in the very best repute one out he fell back in the fre just now. On Thursday there was a disgraceful wrangle on the floor over an attempt to indefinitely postpone

relating to procedure in court trials. Senator Austin wanted the law changed so that special instructions and interrogations be made to a jury before the court's argument instead of afterward, as now. The committee on judiciary recommended that the bill be indefinitely postponed. Senator Austin championed his measure on the floor. He charged that the present law was wholly in the interest of corporations and that corporation lawttee to throt tle the bill. He said the friends of a hundred applications, but others vers induced the co the bill had not been given a fair were simply swamped with letters hearing. There were sharp passages asking for the books. between Senators Austin, Stewart and Shallenberger, in which the lie was as

good as passed. The unusual spectacle was the direct outcome of the senate committees meeting behind locked doors. The really important work of the legislature is done in committees, and here objectionable bills. Because of the dark-lantern methods of senate committees it is impossible for the public to be apprised of the doing there and the fight grew out of such methods. The trouble is that some of the oldtime senators are trying to run the senate without giving new members due consideration.

The Johnson bills to turn the Miami and Erie canals over to the "electric mule" company will not be made laws in their present shape. It is said new bills will be introduced by the electric mule interests and the information is vouchsafed that these first bills were intended as "feelers" only.

While the temperament of the senate has not been ruffled by canal measures, that body has taken a unique position in the matter. Joint meetings of the finance and public works committees are being held, in which the canal proposition is thoroughly threshed out. The members of the senate propose to be fully advised of the situation if any canal bills ever reach that body.

The bill to abolish spring elections will be introduced early in the week. The measure will be received with enthusiasm by that large class of persons who are tired of hearing so much about politics. It is a fact that one election is no more inscribed on the pages of history than the next one is discussed with warmth and feeling.

The bill in question is in the hands of Attorney General Ellis and ex-Attorney General Sheets. If the present outline is followed, all elections but school will be held in the fall. It is argued that school elections should be held in the spring and that the people will be glad to have the important matter of education divorced from the more strenuous political scrimmages of the fall.

In due time, if the Republican mafority is continued in the general assembly, an effort will be made to have the people endorse an amendment to the constitution which will permit state elections to be held one year and municipal and county elections the next year. Of course, this cannot be brought about until after the new election scheme is inaugurated and it is not likely that a constitutional amendment resolution will be presented to the legislature this winter.

The feeling prevails that the general assembly should shut up shop not on the general appropriation bills is progressing satisfactorily and the members have so thoroughly studied the school and election questions that it is that "pulls" are exercised to kill it will not take long to get these important matters out of the way.

Alhough it has been the custom in the past to adjourn the legislature on the 12th Inst., out of respect to the anniversary of the birth of the great Lincoln, no such action was taken this time. The legislators were desirous of putting in as much time as possible at their desks, and the usual Friday morning session was held.

The principal observation of Lincoln day was by the League of Republican clubs at Cleveland on Friday night. Governor Herrick went to Cleveland late Thursday and will not get back to his office until Monday.

It was a runaway mule that caused Sarah Smith of Cincinnati, while hanging out the weekly wash on the banks of the canal, near Brighton, to be upset and thrown down with such force as to break one of her legs. The mule was galloping away from a state canal boat when the accident oc curred. Members of the Cincinnati delegation refused to offer a bill for damages, and it was presented to the house of representatives by Mr. Thompson of Champaign county. The other Tom Johnson bill, the 2-cent fare bill for steam railroads. was introduced by Mr. Spangler of Henry. While these measures were introduced by Democrats, neither will receive anything like solid support from the Democratic representatives, several members having said they thought the best thing they could do for their party would be to get as far away as possible from Tom Johnson's program.

The anti-pass bill provides a fine of \$100 to \$500, both for the public official who uses a pass and for the railroad company or agent who furnishes the pass, and even goes to the extent of forbidding the sale of tickets to anyone at a less rate than is charged to the public generally.

Mrs. Powell Arrested for Murder at Funeral of Alleged Victim.

Dover, Del., Feb. 15 .- Mrs. Mary Anna Powell, wife of Alfred L. Powell, has been arrested, charged with the murder of Estella Allaband, her 21year-old daughter, whose terribly mutilated body was found in the attic of the Powell farm house near Magnolla 10 miles from here. The accused woman was placed in the Dover jail and will be given a hearing on Tuesday, Feb. 23. The arrest of Mrs. Pow ell is the result of an investigation carried on by the state authorities who were not satisfied with the verdict of suicide rendered by a coron er's jury.

Mrs. Powell was taken into custody after the funeral of the girl. She took her arrest coolly. As she left the house she said to one of the farm hands: "Good bye, Peter; I am going, I may come back and I may not."

The detectives say they have se cured a statement from Edgar Cooper the five-year-old adopted son of the Powells, who was alone in the house with Mrs. Powell on the day the gir is alleged to have been killed. According to the detectives the boy said that Estella had been struck "by Aunt Molly" (Mrs. Powell) with a piece of wood while she was washing in the out shed, and that Estella ran into the kitchen where she was again attacked.

The Powell house in which are Mr. Powell and three farm hands is still under surveillance.

A Home Treatment for \$1.00 With Tonic Free

We all know that Small Pox, Typhord, Diphtheria, Measles, Mumps, Scarlet Fever, Whooping Cough, etc., are "catching." They are "catching" or contagious be cause they are germ or microbe diseases. This is no theory, it is a proved fact, admitted by all scientific men. Dr. Theo dore Potter, the eminent Bacteriologist, says:-"We can see bacteria, can cuitivate them, can identify and grow the different varieties. We can plant them in the bodies of men and animals and reproduce at will the diseases from which the bacteria were obtained."

This is equally true of Catarrh. The carrion-like breath of the Catarrh victim s laden with these mangnant germs; so erful miscroscope and see the mwriggle. They are very minute it is true. It takes 200,000 of them laid side by side to cover an inch on the rule, but there is probably no microbe so long lived, so persistent, so voracious and so hard to kill.

Not Climatic.

The opinion has widely prevailed that Catarrh was caused by climatic conditions. This is found to be a mistake, and has had most disastrous results, leaving the disease to spread unchecked over wide sections of the country. Possibly some localities are more favorable to its development and violence than others, but there must be the seed before you can get the harvest. Oats must be sown to produce oats, and wheat to produce wheat. The Small Pox microbe must be sown to to produce Mumps. So the Catarra mi-crobe must be berathed in to produce Ca-tarrh, climate or no climate. The Ca-tarrh germ will produce Catarra and nothing else will produce it.

Again. Among the Aborigines of this country Catarrh was unknown. That proves it to not "climatie." Another thing. It took 200 years for Catarrh to get a foothold among us. Forty years ago less than 5 per cent. of the adult population were affected. Today there are over 20,000,000 victims, and rapidly multiplying. Has "climate" done this? Could anything dout but contagion?

How has it Spread?

The breath! The fetid, germ-laden breath. Also by contact, as in kissing. Also from expectorations; and washing in the same bowl, using the same towels. napkins, etc., used by those afflicted with this putrid disease. It does not spring from the blood or any condition of the The Catarrh microbe is never found in the "blood." It is not a "blood disease," and cannot be cured by 'blood medicines." It is a germ disease and is propagated as above stated. It could not he propagated throughthe "blood."

A Sanitary Problem.

So rapid have been the ravages of this putrid distemper within the last few years that it must spon come to the front at the most vital stattary problem. The disease is everywhere, but in many local ities it is a veritable pestilence. If every house were quarantined where it exists how many houses would fail to display the "Yellow Flag?" Every one must help to stamp out this plague. Every one is vitally interested. Every one who is now free from it must avoid contagion as they would Small Pox or the Cholera. Those who are afflicted with it, even in a mild form, should hasten to get cured, and the produce Small Pox, the Mumps microbe other members of the family for their in cold weather.

own safety, should insist on instant au-tien. With united action the plague can be stayed and stamped out.

One Sure Cure.

Fortunately an antidote has at last been found for this flithy and infectious disorder. At last, after everything else had failed, and even the doctors had given up in despair, Brazilian Balm was discovered It kills the microbe instantly; it penetrates between the folds and into the deepest passages of the bead, healing the ulcers and running sores. It is the most healing balsam in the world. The moment you begin its use it renders the breath and expectoration immune (nontagious.) It heals the throat, curing Asthme and Bronchitis. It heals the stomach that has been made raw and ulcerated by swallowing the germ-laden Catarrh pus. It quickly takes Colds and Grippe out of the system. It has been in use 15 years and oured tens of thousands. even where the throat was eaten out se you could put your finger into the holes an inch deep. It will cure you.

A Great Offer.

Catarrh victims have run down systems and impaired vitality. It sould hardly be otherwise.

They need a good Tonie to help in restoring their lost vigor. A nerve and strength builder. We have the best remedy for this known to science: TOXItime on, for the next six months, enclose a month's treatment of TOXICOLA TAB LETS with every \$1.00 bottle of Brazilian Balm. SCHOOLCODE OUESTION FROM LAST TO FIRST It is Being Threshed Out at Columbus

in a Lively Way.

SATISFACTORY BILL PROMISED

State University and Common School Levy-Abolition of Spring Elections-The Canal Problem. Other Matters.

Columbus, February 15-(Special). All of the so-called administration measures except the election bill are now before the legislature. The school code is the principal subject of discussion, and that question is being threshed out in such a lively way that there can be no doubt that the bill which is finally made a law will be the best that can be devised. It will be impossible to please all interests. but if it proves as successful as the municipal code, which created so much discussion, the Republican party state. may feel well satisfied.

It may be remarked parenthetically, that the municipal code is a great success. There is no better evidence that it is generally satisfactory than the action or rather non-action of the legislature upon it. Only a few bills have been introduced which propose changing the code, and none of the changes are of great importance.

That supposedly staid body, the senate, is not in the very best repute one out he fell back in the fre just now. On Thursday there was a disgraceful wrangle on the floor over an attempt to indefinitely postpone

and thereby kill Senator Austin's bill relating to procedure in court trials. Senator Austin wanted the law changed so that special instructions and interrogations be made to a jury before the court's argument instead of afterward, as now. The committee on judiciary recommended that the bill be indefinitely postponed. Senator Austin championed his measure on the floor. He charged that the present law was wholly in the interest of cortle the bill. He said the friends of a hundred applications, but hearing. meeting behind locked doors. The really important work of the legislature is done in committees, and here objectionable bills. Because of the dark-lantern methods of senate committees it is impossible for the public to be apprised of the doing there and the fight grew out of such methods. The trouble is that some of the oldtime senators are trying to run the senate without giving new members due consideration.

The Johnson bills to turn the Miami and Erie canals over to the "electric mule" company will not be made laws In their present shape. It is said new bills will be introduced by the electric mule interests and the information is vouchsafed that these first bills were intended as "feelers" only.

While the temperament of the senate has not been ruffled by canal measures, that body has taken a unique position in the matter. Joint meetings of the finance and public works committees are being held, in which the canal proposition is thoroughly threshed out. The members of the senate propose to be fully advised of the situation if any canal bills ever reach that body.

The bill to abolish spring elections will be introduced early in the week. The measure will be received with enthusiasm by that large class of persons who are tired of hearing so much about politics. It is a fact that one election is no more inscribed on the pages of history than the next one is discussed with warmth and feeling.

The bill in question is in the hands of Attorney General Ellis and ex-Attorney General Sheets. If the present outline is followed, all elections but school will be held in the fall. It is argued that school elections should be held in the spring and that the people will be glad to have the important matter of education divorced from the more strenuous political scrimmages of the fall.

In due time, if the Republican mafority is continued in the general assembly, an effort will be made to have the people endorse an amendment to the constitution which will permit state elections to be held one year and municipal and county elections the next year. Of course, this cannot be brought about until after the new election scheme is inaugurated and it is not likely that a constitutional amendment resolution will be presented to the legislature this winter.
